

25 Wentworth St.

Manly.

18.12.30

Dear Harry,

I recieved your letter on Friday and also one from Bert this morning he is well. But his letter was more like one of yours than his. not like our old Bert.

It is funny Harry but although I hated bobar when I was there I get a kind of homesick for it, you may not think it possible but it is. It may be because one we all loved body is buried there.

I was only thinking to-day that when mum was down with me that time she went to see doctor Roy Wima and he told

But that it that she could only
last another years and her was right
almost to the day. I did not take
much notice of it then.

Harry we are all sepprated far
enough apart.

Well I don't want to stay
up very late to - night but I
hope you will understand that I
am very lonely and will right
again soon.

Your loving sister
Nell.
