Dear Harry

I am enclosing a letter I received from the Farmers Relief people last Sunday, I know you are not very keen on the Income Prohibition & after a ~~cat~~ consultation with Hylda & Dan I have decided to carry on for 12 months as things are

I could not let you know sooner as I have only just received the letter & I hope ~~Per~~ keeping you waiting has not interfered with your own plans you will see by the letter that the Farmers Relief are a bit doubtful about pulling the place out & after having a talk with Hawker I am reluctant to pull out of the protection of the act.

He strongly advises me to stay under the act as if I pulled out now it would give all my creditors open slather ~~which~~ which they would not fail to take advantage of the chance.

I'd like you to drop me a few lines & let me know if you are in agreement with what I have done. I have given the matter a lot of consideration & I have nearly been worried stiff on Hydla's account. That is about all I can say now except to wish you the complements of the season.

Your affectionate
Father
