Dear, Dad.

I heard from Grace that "Karma" has been sold, so Kylda has got her way at last; she made it that way so that it was impossible for anyone to stay there and look after it for you so that you would have to sell. She has been trying for years to get the place in her name, even went to the bank to try and get them to transfer it to her. She didn't want it to be sold before when you were in debt because she wouldn't get anything out of it now that you are a rich man and she will be able to fly around and have a good time. She doesn't want to stay she will only stick to you until she gets all your money, and then leave you. She would have left you years ago if she had been able to get anything out of you. She even went to a solicitor to find out if she would have any claim on you if she left you.

She has done nothing else but talk about you will right from the day she married you.

Young Billy and Mary told Sid that when you died ~~the~~ he would not be there long as Kylda would own the place and Billy would be Manager and Syd would get kicked out.

She even blamed Syd for a lot of things he didn't do when Ron Turner was there Syd got the blame for a lot that he didn't do but he wouldn't squeal or tell tales.

She has been working under hand and deceiving you ever since she married you and tried to make out we were all a bad lot even you she used to say some terrible things about you.
